Hyundai Forklift Attachments - Since 1985, Hyundai Heavy Industries continues to be supplying and manufacturing various types of construction tools together with: skid steer loaders, forklift trucks, wheel loaders and excavators. The heavy industry division operates a highly efficient product-supply system. This particular system is powered by zero-tolerance policy, perfect quality control and one of the most advanced automatic production lines.

Led by a group of 477 distributors in 110 countries, construction equipment has been introduced into the rising markets of the Middle East, Africa, Russia, Central and South America. Local Hyundai subsidiaries have been developed within the United States, China, Europe, and India.

Inside Hyundai's Heavy Industries, the Construction Equipment Division works very hard to fulfill and surpass all of their customer's expectations by constructing efficient and dependable tools and offering great after sales assistance. Customer Support is further maintained by a commitment to deliver parts fast to be able to lower the "downtime" of their clients. Hyundai also welcomes customer suggestions in order to project their clients' needs and market requirements onto product improvement, production and sales policies. Hyundai just competes with the different leading brands within the trade.

Hyundai Heavy Industries really value all their clients and is really committed to enhancing all of their products and assistance even further. All of the company's executives and employees attempt to uphold this actuality with the utmost dedication in their merchandise and services. Among their primary objectives is to be able to help make their customers' venture even more prosperous.
