

## Clark Forklift Parts

Clark Forklift Part - Performing worldwide, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in service in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive models of forklifts, with parts covering more than 120,000 specific components for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's relentless goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants because this technique is particularly economical and permits minimal use of resources. Established to guarantee maximum efficiency, this system is designed to discover and acknowledge the most effective methods for manufacturing facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering agenda combines progressive product growth and offers improved customer support and service within the industry.
