

Meritor Part

Meritor Part - The Meritor Business is a leading international supplier established upon one hundred years of tradition of quality and service. Meritor concentrates on integrated systems together with different modules and components to the original equipment manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor prides itself in the company's unique energy and feels that this energy contributes to their competitive advantage in the international operations. The company values all of their customers and wants to guarantee their success while anticipating their various needs. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor encourages innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused staff. These top-caliber workers could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance considered necessary so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers all their staff various chances for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, braking and suspension systems intended for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their international engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located around the world in 19 nations and in 5 different continents.

The supplier development network is specially situated to be able to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each and every part of the company. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business processes and apply lean methods.
