

Rockwell Part

Rockwell Part - The business of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for technology, delivery, quality and service. They believe in working in an atmosphere that encourages the utmost integrity with empowered collaboration, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and offering a safe environment for their staff to work in. In addition, they have applied several programs within the company to help articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever comments or questions, as they are glad to share and promote this policy with a greater understanding of their efforts. They are very dedicated to preserving and improving the natural world. AxleTech has an EHS program which not only protects the environment but which also actively protects their neighbors and workers as well.

AxleTech specializes in the designing and manufacture of planetary axles utilized for both commercial and military applications, which may consist of anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider also. AxleTech specially designs axles so as to meet certain application demands. They have more than 1000 different axle specs in their existing offering. With more than 100+ years of history and experience, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in various commercial and military applications. They provide complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details that could be found in the "ISAS" product collection.
